

**Subject:** Letter of recommendation for Eng. Amr Khaled ElBoridy

**To whom it may concern,**

I'm writing to recommend Eng. Amr Khaled Mahmoud Abdo ElBoridy holding a passport number (A19812717) for the position of IT/Systems Engineer. As he was an employee for Bayouni Security solutions, he worked as a Systems Engineer since Monday, August 06, 2017. I have been consistently impressed with his leadership style, diligence, efficiency, and ability to get things done. His knowledge of IT and expertise in network technologies was a huge advantage to our entire business. He put this skillset to work in order to get many end-users satisfied and all their requirements fulfilled.

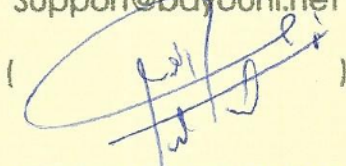

I believe that Amr would be an excellent addition to any business/firm. I've been consistently impressed with his organizational skills, ability to adapt, and grace under pressure. In our field, as you know, every position is a critical position. Amr constantly seeks to learn more about IT and Physical Security products and programs so that he can help serve our possible end-users and mitigate issues as they come up. He is also a quick learner who picks up new technology with great speed.

I strongly recommend Amr as he has managerial abilities that may be implemented in different fields, detail-oriented, effective, and committed to getting the job done. He'd make an excellent addition to your team.

Please feel free to contact me at the below contact if you have any questions.

Sincerely,

Talal Hussain Bayouni
